

Documenting the coronavirus with a scrapbook

The 2020 Coronavirus pandemic is an unprecedented time for all of us.

As adults, we are dealing with overwhelming news every day from around the globe.

Our nursery children however are experiencing a part of history in their early lives, that they will likely go on to cover in school and look back on as an adult.

Why not create a scrapbook to help you to capture the current situation from a child's perspective?

Children can look back on the scrapbook in years to come and it will help them to capture what they are experiencing and feeling now.

We've created a free downloadable guide on creating this scrapbook and a template for you to use.

With thanks to Towers Day Nursery for providing this image of children preparing their rainbow for a 'stay safe' message.
