NDNA Cymru...

who we are...

National Day Nurseries Association (NDNA) is a national charity, which aims to enhance the development and education of children in their early years, through the provision of support services to members. We have a thriving membership of nursery providers across the private, voluntary and maintained sectors. NDNA seeks to develop, encourage and maintain high standards in education and care for the benefit of the children, their families and their local communities. We are recognised as the voice of the sector by the Government nationally and locally and by the media.

what we do...

We support day nursery providers to deliver quality childcare and early years education. We provide information and support to members through our newsletter, publications, briefing papers, website, conferences and regional and national networking. NDNA encourages day nurseries to work towards a consistently high standard of provision through our accreditation scheme, e-Quality Counts.

With the support of the Welsh Assembly Government, NDNA Cymru continues to develop and represent the sector in Wales. We are:

- Working strategically with the Welsh Assembly Government and other agencies to address childcare issues in Wales
- Developing and facilitating relationships with local networks of nursery members
- Producing information to keep members up to date
- Developing a Continuous Professional Development (CPD) training programme
- Working with local authorities to support day nurseries throughout Wales.
