

quality improvement

supporting the development of quality care and early learning

NDNA can help you to support settings in your area to develop their practices and improve quality. We have two options for quality improvement:

- 1) NDNA Quality Improvement Programmes
- 2) e-Quality Counts - our national quality assurance scheme.

Quality Improvement Programmes

Our range of 15 Quality Improvement Programmes are affordable step-by-step programmes to help nurseries improve practice across different areas of the setting. They help nurseries to improve their inspection ratings, increase occupancy, become more sustainable and improve children's outcomes.

Quality Improvement Programmes are just £95 per setting for NDNA members and £120 for non-members - discounts are available for local authorities wishing to purchase multiple programmes.

e-Quality Counts

e-Quality Counts is NDNA's innovative online quality assurance scheme specifically designed for early years providers. The comprehensive scheme covers all areas of quality within the nursery.
