

# Please support our private and voluntary nurseries across Wales

National Insurance Contributions and increased minimum wages will hit nurseries hard:

Nursery staff costs 75%

Restaurant staff costs 30%

This will add £2,600 per employee or £23,700 for an average nursery:

£2,600 a year per employee\*

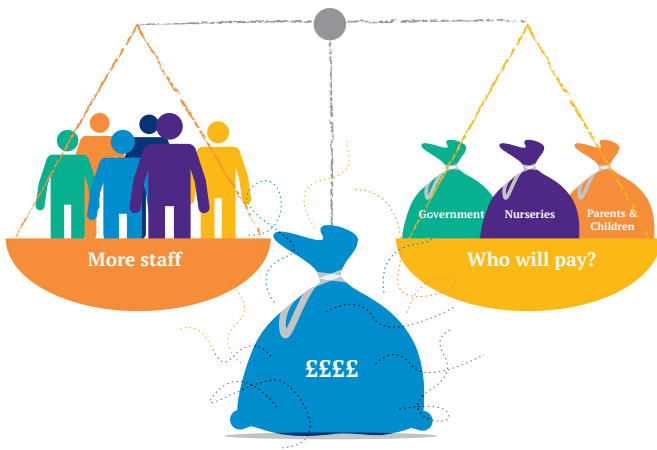

£23,700 a year for the average nursery\*

11% increase to staff costs

\*based Real Living Wage increases and 16 staff members

Government funding will not cover these costs – so who will pay? How will nurseries be able to afford to take on enough staff to expand funded childcare?

Please sign our petition and contact your local MP & MS
