

A Welsh dimension in the construction area.

Castles can be built using many different materials, collecting recycling can teach the children how to recycle, what can be recycled and what can be made from recycled materials, how about including a Welsh dimension by building castles, this learning opportunity could be extended by keeping the castles and decorating.

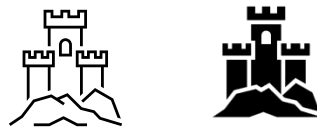

Building blocks such as Lego, stickle bricks and wooden blocks, bring endless imaginative opportunities, children could create castles, daffodils or even a flag.

The blocks in the construction area could be red, white and green.

Helmets and high visibility jackets could have construction job titles on them in Welsh.

Tools and building materials could be labelled bilingually.
